Notice of Allowance

This is the Notice of Allowance for application number 10/711,100 RADIO BIN SPACER, filed on 8/23/04. Claims 1-17 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art does not teach a bin having exterior dimensions allowing mounting within an instrument panel opening designed for a larger than standard sized radio and further having interior dimensions allowing mounting of a standard sized radio directly therein; thereby providing a mounting area sized for a standard radio in an opening in an instrument panel sized for a larger radio having a generally rectangular radio bin spacer having one closed rear end and one open end and further having a planar top wall, a planar bottom wall and two planar side walls; the top wall having a structural rib located thereon; the side walls each having a mounting tab located thereon wherein each the mounting tab has a bore located therein; the closed rear end of the bin having a pair of spacer stanchions located thereon.

An affidavit dated 8/8/08, filed under 37 CFR 1.132 states that a standard sized radio means single DIN (180 x 50mm). The prior art does not show this feature.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
